

FREIWUCHS TREE PROTECTOR TUBE - LARGE MESHED

Ideally suitable for coniferous woods

- rigid net tube with **strengthening band** for excellent stability
- easy to attach to stake (e.g. bamboo) with cable ties or wire
- **generous meshes** are sufficiently large so that shoots can grow out of protector tube
- available as **ready-to-use, pre-cut pieces** (1.20 m or 1.50 m) **or** as **tube rolls of 100 linear metres** – allow you to determine the desired length of the protector tube individually
- **durable** (UV stable): **6 to 8 years**, afterwards material (PE) decomposes **environmentally neutral**
- colour: green

① cable ties for attachment

③ large mesh size

② strengthening band

Freiwuchs 300®

Tailor-made for larch

- growing space diameter: 20 cm
- mesh size: 1 x 1 cm
- also suitable for deciduous woods
