

**TubZipp®
Vine Shelter**

The only tube-like vine shelter that can be closed and then re-opened (growing space diameter approx. 10 cm)

- TubZipp® can be opened and closed, what makes it easily reusable
- **round design ensures good stability**, growing space diameter approx. 10 cm
- It is **highly translucent** to promote strong plant growth and good plant health
- Protects from game, and from damage caused by mechanical and chemical (**herbicides**) weed control measures
- no growing-out of side shoots, **thus less tying or cutting work necessary**
- **Keeps weeds and tendrils out of growing space**
- You can leave TubZipp® at the vine plant even after winter pruning, since shelter can be removed at any time
- double layer material for temperature regulation
- droplet irrigation through dew in the hollow chambers of the material, **growth promoting**
- colour: transparent brown
- durable (UV stable): 3 to 5 years, material (PP) decomposes environmentally neutral afterwards
