

WitaEconom® Vine Shelter

WitaEconom® offers you similar advantages as WitaGrow®. The fact that it is manufactured of less material makes it, however, considerably less expensive.

- Talons at the bottom ensure a better hold in the ground
- Shelter can be closed and re-opened what makes it easily reusable
- **large growing space**
(square, side length approx. 8 to 8.7 cm, **growing space diameter approx. 12 cm**)
- **greatly translucent** for strong growth and healthy plants
- Protects from game, **and from damage caused by mechanical and chemical (herbicides) weed control measures**
- no growing-out of side shoots, **thus less tying or cutting work necessary**
- **Keeps weeds and tendrils out of growing space**
- double layer material for temperature regulation
- droplet irrigation through dew in the hollow chambers of the material, **growth promoting**
- colour: transparent blue (Type 40, 50, 60), repellent effect; green made to order
- durable (UV stable): 3 to 5 years, material (PP) decomposes environmentally neutral afterwards
