

WitaScroll®

The re-openable alternative to closed vine shelters

Shelter is rolled together and holds through self-equilibrating stress, which makes installation and reuse very easy.

NEW!

- growing space diameter: approx. 5 cm
- excellent stability
- Its **good translucency** promotes strong plant growth and healthy plants
- Protects from game, **and from damage caused by mechanical and chemical (herbicides) weed control measures**
- no growing-out of side shoots, **thus less tying or cutting work necessary**
- **Keeps weeds and tendrils out of growing space**
- durable (UV stable): 4 to 5 years, material (PP) decomposes environmentally neutral afterwards
- length: 50 cm

Shelter is rolled together = remains stable without further attachment
