

WitaPlant® Klima

WitaPlant® Klima features the advancement of the WitaPlant®-perforation in the upper section of the tree shelter which increases plant resistance

NEW!

Growth promoting – **special perforation in the upper section** of the tree shelter provides for a **better transition** from the climate conditions in the unperforated, closed, growth promoting lower section of the shelter to climate conditions outside the shelter. **Your plant becomes well prepared for the harsh “outside world”**. **Plants that get in touch with the harsher climate outside the protector through the perforation in the shelter produce much greater benefits.**

- **greatly translucent** double layer material provides **for healthy plants and strong growth**
- shelter **can be opened and closed** which makes it **easily reusable**, very stable
- **patented micro-ventilation (120 cm)** – various ventilation holes can be opened when protector is used at warm sites to allow better ventilation and, thus, climate regulation
- large growing space diameter: 14 cm
- earthing up around shelter prevents chimney effect
- durable (UV stable): 4 to 5 years, afterwards material (PP) decomposes environmentally neutral
- colour: transparent green

Perforation to increase plant resistance

item no.	item	price (in €)	
		excl. VAT	incl. VAT
111311	Witaplant® Klima – 120 cm growing space Ø ca. 14 cm, square (shipping unit: 100 pcs.)	per piece	
	from 1000 pcs. (pallet)		
	500 to 900 pcs.		
	100 to 400 pcs.		

WitaEconom®

The most inexpensive tree shelter

- WitaEconom® offers you similar advantages as WitaPlant. The fact that it is manufactured of less material makes it, however, considerably less expensive.
- growing space diameter: ca. 12 cm
- **greatly translucent** double layer material provides **for healthy plants and strong growth**
- earthing up around shelter prevents chimney effect
- durable (UV stable): 3 to 5 years, material (PP) decomposes environmentally neutral afterwards
- colour: transparent green (type 120 tree protection), blue (type 40, 50, 60 vine protection)
