SECTION 1 : IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING

1.1. Product identifier
   Product name : SOVEURODE GLU
   Product code : 1471.

1.2. Relevant identified uses of the substance or mixture and uses advised against

1.3. Details of the supplier of the safety data sheet
   Registered company name : Witasek PflanzenSchutz GmbH
   Address : Mozartstraße 1a, A-9560 Feldkirchen
   Telephone : +43 (0) 4276/ 3230  Fax : +43 (0) 4276/ 2088-399
   office@witasek.com
   www.witasek.com

1.4. Emergency telephone number : +43 (0) 1.4064343
   Association/Organisation : WITASEK

SECTION 2 : HAZARDS IDENTIFICATION

2.1. Classification of the substance or mixture
   In compliance with EC regulation No. 1272/2008 and its amendments.
   Flammable aerosol, Category 1 (Aerosol 1, H222 - H229).
   Skin irritation, Category 2 (Skin Irrit. 2, H315).
   This mixture does not present an environmental hazard. No known or foreseeable environmental damage under standard conditions of use.
   Target organs toxicity, Category 3 (STOT SE, H336)

   Extremely flammable (F+, R 12).
   Skin irritation (Xi, R 38).
   This mixture does not present an environmental hazard. No known or foreseeable environmental damage under standard conditions of use.
   Vapour inhalation can cause drowsiness and dizziness (R67)

2.2. Label elements
   Mixture for spray application.
   Mixture for aerosol application.

   In compliance with EC regulation No. 1272/2008 and its amendments.

   Hazard pictograms :

   GHS07  GHS02
   Signal Word : DANGER
   Hazard statements :
   H222 Extremely flammable aerosol.
   H229 Pressurised container: May burst if heated.
   H315 Causes skin irritation.

   Precautionary statements - General :
   P101 If medical advice is needed, have product container or label at hand.
   P102 Keep out of reach of children.

   Precautionary statements - Prevention :
   P210 Keep away from heat/sparks/open flames/hot surfaces. — No smoking.
   P211 Do not spray on an open flame or other ignition source.
P251  Pressurized container: Do not pierce or burn, even after use.
P260  Do not breathe dust/fume/gas/mist/vapours/spray.
P271  Use only outdoors or in a well-ventilated area.
P273  Avoid release to the environment.
P280  Wear protective gloves/protective clothing/eye protection/face protection.

Precautionary statements - Response:
P301 + P310  IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician.
P302 + P352  IF ON SKIN: Wash with plenty of soap and water.
P312  Call a POISON CENTER or doctor/physician if you feel unwell.

Precautionary statements - Storage:
P410 + P412  Protect from sunlight. Do not expose to temperatures exceeding 50°C/122°F.

2.3. Other hazards
The mixture does not contain any substances classified as 'Substances of Very High Concern' (SVHC) by the European Chemicals Agency (ECHA) under article 57 of REACH: http://echa.europa.eu/fr/candidate-list-table

The mixture satisfies neither the PBT nor the vPvB criteria for mixtures in accordance with annexe XIII of the REACH regulations EC 1907/2006.

N/A
N/A

SECTION 3 : COMPOSITION/INFORMATION ON INGREDIENTS

3.1. Substances
No substances fulfil the criteria set forth in annexe II section A of the REACH regulation (EC) n° 1907/2006.

3.2. Mixtures

Information on ingredients:

[1] Substance for which maximum workplace exposure limits are available.

Note K: The carcinogen or mutagen classification does not apply because the substance contains less than 0.1 % w/w of 1,3-butadiene (EINECS 203-450-8).

Note P: The carcinogen or mutagen classification does not apply because the substance contains less than 0.1 % w/w of benzene (EINECS 200-753-7).
**SECTION 4 : FIRST AID MEASURES**

As a general rule, in case of doubt or if symptoms persist, always call a doctor. NEVER induce swallowing by an unconscious person.

### 4.1. Description of first aid measures

**In the event of splashes or contact with eyes :**
Wash thoroughly with soft, clean water for 15 minutes holding the eyelids open.

**In the event of splashes or contact with skin :**
Remove contaminated clothing and wash the skin thoroughly with soap and water or a recognised cleaner.
Watch out for any remaining product between skin and clothing, watches, shoes, etc.
If the contaminated area is widespread and/or there is damage to the skin, a doctor must be consulted or the patient transferred to hospital.

**In the event of swallowing :**
Do not give the patient anything orally.
In the event of swallowing, if the quantity is small (no more than one mouthful), rinse the mouth with water and consult a doctor.
Keep the person exposed at rest. Do not force vomiting.
Seek medical attention immediately, showing the label.
If swallowed accidentally, call a doctor to ascertain whether observation and hospital care will be necessary. Show the label.

### 4.2. Most important symptoms and effects, both acute and delayed

No data available.

### 4.3. Indication of any immediate medical attention and special treatment needed

No data available.

**SECTION 5 : FIREFIGHTING MEASURES**

Flammable.
Chemical powders, carbon dioxide and other extinguishing gas are suitable for small fires.

### 5.1. Extinguishing media

Keep packages near the fire cool, to prevent pressurised containers from bursting.

**Suitable methods of extinction**

In the event of a fire, use:
- sprayed water or water mist
- water with AFFF (Aqueous Film Forming Foam) additive
- halon
- foam
- multipurpose ABC powder
- BC powder
- carbon dioxide (CO2)

Prevent the effluent of fire-fighting measures from entering drains or waterways.

**Unsuitable methods of extinction**

In the event of a fire, do not use:
- water jet

### 5.2. Special hazards arising from the substance or mixture

A fire will often produce a thick black smoke. Exposure to decomposition products may be hazardous to health.
Do not breathe in smoke.
In the event of a fire, the following may be formed:
- carbon monoxide (CO)
- carbon dioxide (CO2)

### 5.3. Advice for firefighters

Fire-fighting personnel are to be equipped with autonomous insulating breathing apparatus.
**SECTION 6 : ACCIDENTAL RELEASE MEASURES**

6.1. Personal precautions, protective equipment and emergency procedures

Consult the safety measures listed under headings 7 and 8.

**For non fire-fighters**

Because of the organic solvents contained in the mixture, eliminate sources of ignition and ventilate the area.

Avoid any contact with the skin and eyes.

**For fire-fighters**

Fire-fighters will be equipped with suitable personal protective equipment (See section 8).

6.2. Environmental precautions

Contain and control the leaks or spills with non-combustible absorbent materials such as sand, earth, vermiculite, diatomaceous earth in drums for waste disposal.

Prevent any material from entering drains or waterways.

6.3. Methods and material for containment and cleaning up

Clean preferably with a detergent, do not use solvents.

6.4. Reference to other sections

No data available.

**SECTION 7 : HANDLING AND STORAGE**

Requirements relating to storage premises apply to all facilities where the mixture is handled.

7.1. Precautions for safe handling

Always wash hands after handling.

Remove and wash contaminated clothing before re-using.

Ensure that there is adequate ventilation, especially in confined areas.

**Fire prevention**

Handle in well-ventilated areas.

Vapours are heavier than air. They can spread along the ground and form mixtures that are explosive with air.

Prevent the formation of flammable or explosive concentrations in air and avoid vapor concentrations higher than the occupational exposure limits.

Do not spray on a naked flame or any incandescent material.

Do not pierce or burn, even after use.

Use the mixture in premises free of naked flames or other sources of ignition and ensure that electrical equipment is suitably protected.

Keep packages tightly closed and away from sources of heat, sparks and naked flames.

Do not use tools which may produce sparks. Do not smoke.

Prevent access by unauthorised personnel.

**Recommended equipment and procedures**

For personal protection, see section 8.

Observe precautions stated on label and also industrial safety regulations.

Do not breathe in aerosols.

Where the personnel must carry out work in a booth, whether for spraying or otherwise, the ventilation may be inadequate to control particles and solvent vapors in every case.

It is therefore recommended that personnel wear masks with a compressed air supply during spraying operations until the concentration of particles and solvent vapors has fallen below the exposure limits.

Packages which have been opened must be reclosed carefully and stored in an upright position.

**Prohibited equipment and procedures**

No smoking, eating or drinking in areas where the mixture is used.

7.2. Conditions for safe storage, including any incompatibilities

No data available.

**Storage**

Keep out of reach of children.

Keep the container tightly closed in a dry, well-ventilated place.

Keep away from all sources of ignition - do not smoke.

Keep well away from all sources of ignition, heat and direct sunlight.

The floor must be impermeable and form a collecting basin so that, in the event of an accidental spillage, the liquid cannot spread beyond this area.
Pressurised container: protect from sunlight and do not expose to temperatures exceeding 50°C.

**Packaging**
Always keep in packaging made of an identical material to the original.

### 7.3. Specific end use(s)
No data available.

### SECTION 8 : EXPOSURE CONTROLS/PERSONAL PROTECTION

#### 8.1. Control parameters

#### 8.2. Exposure controls

**Personal protection measures, such as personal protective equipment**

Pictogram(s) indicating the obligation of wearing personal protective equipment (PPE):

- Use personal protective equipment that is clean and has been properly maintained.
- Store personal protective equipment in a clean place, away from the work area.
- Never eat, drink or smoke during use. Remove and wash contaminated clothing before re-using. Ensure that there is adequate ventilation, especially in confined areas.
- **Eye / face protection**  
  Avoid contact with eyes.  
  Use eye protectors designed to protect against liquid splashes  
  Before handling, wear safety goggles in accordance with standard EN166.

- **Hand protection**  
  Use suitable protective gloves that are resistant to chemical agents in accordance with standard EN374.  
  Gloves must be selected according to the application and duration of use at the workstation.  
  Protective gloves need to be selected according to their suitability for the workstation in question; other chemical products that may be handled, necessary physical protections (cutting, pricking, heat protection), level of dexterity required.  
  Type of gloves recommended:  
  - Nitrile rubber (butadiene-acrylonitrile copolymer rubber (NBR))  
  - PVA (Polyvinyl alcohol)  
  Recommended properties:  
  - Impervious gloves in accordance with standard EN374

- **Body protection**  
  Avoid skin contact.  
  Wear suitable protective clothing.  
  Suitable type of protective clothing:  
  In the event of spraying, wear protective clothing against chemical risks and against sprayed liquid (type 4) in accordance with EN14605 to prevent skin contact.  
  Work clothing worn by personnel shall be laundered regularly.  
  After contact with the product, all parts of the body that have been soiled must be washed.

- **Respiratory protection**  
  Category:  
  - FFP1  
  Anti-gas and vapour filter(s) (Combined filters) in accordance with standard EN14387:  
  - A1 (Brown)  
  Particle filter according to standard EN143:  
  - P1 (White)

---

### SECTION 9 : PHYSICAL AND CHEMICAL PROPERTIES

#### 9.1. Information on basic physical and chemical properties

**General information:**
- Physical state: fluid liquid, spray.

**Important health, safety and environmental information**
- pH: Not stated.  
  - neutral.
- Boiling point/boiling range: not specified.
- Vapour pressure (50°C): not relevant.
- Density: not stated.
- Water solubility: Insoluble.
- Viscosity: $v < 7 \text{ mm}^2/\text{s} (40^\circ\text{C})$
- Melting point/melting range: not specified.
- Self-ignition temperature: not specified.
- Decomposition point/decomposition range: not specified.
- Chemical combustion heat: not specified.
- Inflammation time: not specified.
- Deflagration density: not specified.
- Inflammation distance: not specified.
- Flame height: not specified.
- Flame duration: not specified.
9.2. Other information
No data available.

SECTION 10 : STABILITY AND REACTIVITY

10.1. Reactivity
No data available.

10.2. Chemical stability
This mixture is stable under the recommended handling and storage conditions in section 7.

10.3. Possibility of hazardous reactions
When exposed to high temperatures, the mixture can release hazardous decomposition products, such as carbon monoxide and dioxide, fumes and nitrogen oxide.

10.4. Conditions to avoid
Any apparatus likely to produce a flame or to have a metallic surface at high temperature (burners, electric arcs, furnaces etc.) must not be allowed on the premises.

Avoid:
- heating
- heat

10.5. Incompatible materials

10.6. Hazardous decomposition products
The thermal decomposition may release/form:
- carbon monoxide (CO)
- carbon dioxide (CO2)

SECTION 11 : TOXICOLOGICAL INFORMATION

11.1. Information on toxicological effects
Exposure to vapours from solvents in the mixture in excess of the stated occupational exposure limit may result in adverse health effects such as mucous membrane and respiratory system irritation and adverse effects on kidney, liver and central nervous system.
Symptoms produced will include headaches, numbness, dizziness, fatigue, muscular asthenia and, in extreme cases, loss of consciousness.
May cause irreversible damage to the skin; namely inflammation of the skin or the formation of erythema and eschar or oedema following exposure up to four hours.
Repeated or prolonged contact with the mixture may cause removal of natural oil from the skin resulting in non-allergic contact dermatitis and absorption through the skin.
Splashes in the eyes may cause irritation and reversible damage

11.1.1. Substances
No toxicological data available for the substances.

11.1.2. Mixture
Skin corrosion/skin irritation:
The irritant classification is based on the high/low pH value without irritation tests having been performed.

Germ cell mutagenicity:
No mutagenic effect.

Carcinogenicity:
Carcinogenicity Test: Negative.
No carcinogenic effect.

Reproductive toxicant:
No toxic effect for reproduction

SECTION 12 : ECOLOGICAL INFORMATION

12.1. Toxicity

12.1.2. Mixtures
No aquatic toxicity data available for the mixture.

12.2. Persistence and degradability
No data available.
12.3. Bioaccumulative potential
No data available.

12.4. Mobility in soil
No data available.

12.5. Results of PBT and vPvB assessment
No data available.

12.6. Other adverse effects
No data available.

SECTION 13 : DISPOSAL CONSIDERATIONS
Proper waste management of the mixture and/or its container must be determined in accordance with Directive 2008/98/EC.

13.1. Waste treatment methods
Do not pour into drains or waterways.

Waste :
Waste management is carried out without endangering human health, without harming the environment and, in particular without risk to water, air, soil, plants or animals.
Recycle or dispose of waste in compliance with current legislation, preferably via a certified collector or company.
Do not contaminate the ground or water with waste, do not dispose of waste into the environment.

Soiled packaging :
Empty container completely. Keep label(s) on container.
Give to a certified disposal contractor.

SECTION 14 : TRANSPORT INFORMATION

14.1. UN number
1950

14.2. UN proper shipping name
UN1950=AEROSOLS, flammable

14.3. Transport hazard class(es)
- Classification :

2.1

14.4. Packing group
-

14.5. Environmental hazards
-

14.6. Special precautions for user

### SECTION 15 : REGULATORY INFORMATION

#### 15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

- Classification and labelling information included in section 2:
  - The following regulations have been used:
    - Directive 1999/45/EC and its adaptations
    - Directive 75/734/CEE modified by directive 2013/10/UE
    - Regulation EC 1272/2008 modified by regulation EC 618/2012

- Container information:
  - No data available.

- Particular provisions:
  - No data available.

#### 15.2. Chemical safety assessment

- No data available.

### SECTION 16 : OTHER INFORMATION

Since the user's working conditions are not known by us, the information supplied on this safety data sheet is based on our current level of knowledge and on national and community regulations.

The mixture must not be used for other uses than those specified in section 1 without having first obtained written handling instructions.

It is at all times the responsibility of the user to take all necessary measures to comply with legal requirements and local regulations.

The information in this safety data sheet must be regarded as a description of the safety requirements relating to the mixture and not as a guarantee of the properties thereof.

**Hazard symbols:**

- Irritant
- Extremely flammable

**Risk phrase:**

- R38 Irritating to skin.
- R12 Extremely flammable.

**Safety phrase:**

- S16 Keep away from sources of ignition - No smoking.
- S23 Do not breathe gas/fumes/vapour/spray (appropriate wording to be specified by the manufacturer).
  - Pressurized container: protect from sunlight and do not expose to temperatures exceeding 50°C.
  - Do not pierce or burn, even after use.
  - Do not spray on a naked flame or any incandescent material.
- S24 Avoid contact with skin.
- S37 Wear suitable gloves.
- S60 This material and its container must be disposed of as hazardous waste.
- S62 If swallowed, do not induce vomiting: seek medical advice immediately and show this container or label.

**Title for H, EUH and R indications mentioned in section 3:**

- H220 Extremely flammable gas.
- H304 May be fatal if swallowed and enters airways.
- R12 Extremely flammable.
- R65 Harmful: may cause lung damage if swallowed.
